*****DPD ANTI-CATALYTIC CONVERTER “TAGGING” IDENTIFICATION AND ANTI-THEFT PROGRAM*****

Catalytic converter thefts have risen considerably over the past year. One of the challenges in both deterring these crimes and investigating them is that catalytic converters are rarely traceable or identifiable to individual vehicles. This regional trend has also affected DuPont. In response, DPD is proud to partner with [Nisqually Automotive & Towing](#) in the launch of our ANTI-CATALYTIC CONVERTER “TAGGING” IDENTIFICATION AND ANTI-THEFT PROGRAM.

On Saturday, May 14th, 2022, from 9am to 1pm, our friends at Nisqually Automotive & Towing will allow DuPont residents to take their vehicles in to have their catalytic converters engraved with their vehicle’s VIN and “tagged.” Once completed, each vehicle owner will be provided the below DPD “Warning” decals – letting would-be thieves know that the vehicle’s catalytic converter has been “tagged” and can be traced if recovered. It also lets scrap metal buyers know they may be handling a stolen item.

This service is being provided at no cost to the DuPont vehicle owner (for both the engraving and the decal). No appointment is necessary, but be prepared to park for 15 minutes upon arrival to allow the catalytic converter to cool down before mechanics can engrave on it. THANK YOU, NISQUALLY AUTOMOTIVE & TOWING, FOR BEING ONE OF DPD’S GREAT COMMUNITY POLICING PARTNERS!
