Addendum to May 1, 2007 Final Supplemental Environmental Impact Statement,
Pioneer Aggregates Gravel Mine Expansion

To: Affected Agencies and Interested Parties

Re: Addendum to Final Supplemental Environmental Impact Statement

Pursuant to WAC 197-11-625 and -706, the City of DuPont Responsible Official hereby issues the foregoing addendum to the May 1, 2007 Final Supplemental Environmental Impact Statement for the 177.23-acre expansion of the existing Pioneer Aggregates mining operation in the City of DuPont ("Gravel Mine Expansion FSEIS"). Pursuant to WAC 197-11-635, this Addendum incorporates by reference the June 4, 2010 Pioneer Aggregates Gravel Mine Expansion – Sequelitchew Creek Ecosystem and Watershed Restoration Final Feasibility Study ("Feasibility Study") prepared by Anchor QEA, LLC, and Aspect Consulting. The Feasibility Study provides additional information and analysis of options for mitigation of potential environmental impacts of the proposed gravel mine expansion, by examining alternatives for improving or restoring ecosystem functions in the Sequelitchew Creek watershed. The Feasibility Study incorporated by reference herein does not substantially change the analysis of significant impacts and alternatives of the proposed gravel mine expansion discussed in the Gravel Mine Expansion FSEIS.

A copy of the Feasibility Study is available for review at the office of DuPont City Clerk, 1700 Civic Drive, DuPont, Washington 98327 and the City website.

This Addendum will be circulated to recipients of the FSEIS, and to other interested persons, as provided in WAC 197-11-625(4) and (5).

Issued by the City of DuPont on October 13, 2011.

A handwritten signature in blue ink that reads "Dawn Masko".
